DETAILED ACTION

Election/Restrictions

1. Newly submitted claim 42 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claim 42 is directed to a species of figures 5-6 that is distinct from the original elected species of Figures 10B-10D that including a canted portion and a uncanted portion

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 42 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 16, 20, 24, 35 and 36 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Flood et al (US 5,711,702) (see the embodiment of figure 3 for example).

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 21, 22, 27, 38, 28, 39 and 43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Flood et al '477 in view of Devlin (US 5,711,702).

Art Unit: 3672

Flood et al discloses the invention as claimed except for the "non-uniform portion" in the canted or/and uncanted portion. However, it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the canted or uncanted portions of Flood et al with rounded or pointed projections in view of the teaching of Devlin in order to reduce the risk of delamination (see column 7, lines 10-22 and column 2, lines 16-25).

Response to Arguments

6. Applicant's arguments with respect to claims 16, 20, 21, 22, 24, 27, 28, 35, 36, 38, 39 and 43 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

7. Claims 9-15, 23, 25, 26, 29-34, 37, 40 and 41 are allowed.

8. Claim 17 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Drawings

9. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the end surface comprising a canted portion and an uncanted portion and an entire periphery line extending along a plane as called for directly or indirectly in claims 10, 16, 17, 20, 21, 22, 24, 35, 36, 28, 39, 29-33, 40 and 41 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

10. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
